Discussion on Clean Energy in Hawaii

Join us at [Abercrombie for Governor](#) headquarters (Ward Warehouse, 2nd Floor, next door to Kincaid's) on Monday, March 22, 2010, from 5:30 to 7 p.m. for a discussion about clean energy in Hawaii. Attendance is free of charge.

Hawaii is blessed with the most diverse array of alternative energy potential of any state in the nation. Harnessing the natural resources available on our islands to generate renewable energy is an essential part of moving Hawaii toward energy independence. Now we must take it to the next level, and fast.

Three experts from the field will join Neil Abercrombie in a panel discussion: ***What is the future of clean energy in Hawaii?*** Attendees are encouraged to ask questions and join the discussion.

In addition to Neil Abercrombie, the panelists will be:

- Mark Duda, [Hawaii Solar Energy Association](#)
- Robert Harris, [Sierra Club, Hawaii Chapter](#)
- Sharon Miyashiro, [Hawaii Energy Policy Forum](#)

Please RSVP to Josh Levinson at josh@neilabercrombie.com or call 589-2237.

The event will be live-streamed on the web at <http://www.neilabercrombie.com/index.php/live/>. Those watching online will be able to submit questions for the panelists.
